## PRENATAL PROFILE

|  |   |
|--|---|
| <b>KHNY 1 Profile [Liver Profile]</b>  | <b>KHNY 1 Profile [Lipid Profile]</b>             |
| Bilirubin -Total                       | Total Cholesterol                                 |
| Bilirubin -Direct                      | HDL Cholesterol                                   |
| Bilirubin -Indirect                    | Total / HDL Cholesterol Ratio                     |
| Alkaline Phosphatase                   | LDL Cholesterol                                   |
| SGOT (AST)                             | Triglycerides                                     |
| SGPT (ALT)                             | LDL / HDL Ratio                                   |
| GGT                                    | TG / HDL Ratio                                    |
| Total Protein                          |   |
| Albumin                                | <b>Gluta 1 Profile [Bone &amp; Joint Profile]</b> |
| Globulin                               | Calcium   |
| Albumin/Globulin Ratio                 | Phosphate   |
| Calcium/Albumin Ratio                  | Calcium / Phosphate Ratio                         |
| LDH                                    | Uric Acid   |
| <b>KHNY 1 Profile [Kidney Profile]</b> | <b>KHNY 1 Profile [Haematology]</b>               |
| Urea                                   | CBC   |
| Blood Urea Nitrogen (BUN)              | RDW   |
| Creatinine                             | Peripheral Blood Film                             |
| eGFR (C&G) Panel                       | <b>KHNY 1 Profile [Diabetic Mellitus Profile]</b> |
| BUN / Creatinine Ratio                 | Fasting Blood Sugar                               |
| Potassium                              |   |
| Sodium                                 | <b>KHNY 1 Profile [Others]</b>                    |
| Chloride                               | Magnesium   |
| Bicarbonate                            | CRP   |
| Sodium / Potassium Ratio               | Urine FEME  |
| Anion Gap                              | Stool FEME  |
| <b>Full Iron Study</b>                 | <b>KHNY 2</b>                                     |
| Ferritin                               | ECG   |
| TIBC                                   | Stool H.pylori                                    |
| Iron                                   | Echo Abdominal                                    |

|                                |                      |
|--------------------------------|----------------------|
| Iron Saturation %              | ODX-Complementary    |
| <b>Thyroid Basic 1 Profile</b> | <b>Others</b>        |
| FT3                            | HBV 5 in 1 (Rapid)   |
| FT4                            | HCV Ab (Rapid)       |
| TSH                            | HIV 1 & 2 Ab (Rapid) |
|                                | VDRL / TPHA          |
